### General Data Protection Regulation (GDPR)

This data is private and confidential and must not be shared with any third party without our consent. This data is shared with you on the basis that you have put in place measures to protect this information (such as limitations on transfer and retention policies). If that assumption is incorrect please notify us by return.

### SUMMARY

Amy Wilkinson has recently joined McGee Group as an Environmental Advisor. Prior to joining McGee, she was working as an Environmental Advisor on the HS2 project as part of the EKFB Joint Venture. Amy has over two years' experience working on major civil engineering projects, within the UK and in Australia. She holds a BSc (Hons) in Environmental Geography and a Diploma in Project Management. She is also working towards IEMA Practitioner status.

### ROLE AND RESPONSIBILITIES

As an Environmental Advisor, Amy's role on the project is to assist the Environmental Manager and team with regards to any environmental reporting and assist in any environmental administration in general to help with the success of the project. Amy will work closely alongside both the site and client teams to ensure effective and professional delivery of the works.

### RECENT WORK HISTORY

#### Environmental Advisor – EKFB Joint Venture

Worked as an Environmental Advisor on the C2 Central section for the HS2 project. As part of her role Amy was responsible for:

- Preparing and implementing permits and consents, including Section 61 consents and water discharge permits.
- Providing technical advice to the section construction team and subcontractors on environmental issues to ensure compliance with legislation and contractual obligations.
- Advising on a range of technical disciplines including noise, air quality, vibration, surface and groundwater, contaminated land, ecology, vegetation, cultural heritage and archaeology.
- Gathering data from subcontractors and suppliers on their environmental and sustainability data to report to HS2 as part of the monthly KPI reporting.

#### Assistant Environmental Advisor, Ferrovial Construction

- Recording the monthly waste and energy data on SmartWaste, generating reports to determine progress against KPI's and to monitor our carbon footprint as part of our PAS 2080 certification.
- Recording of Waste Transfer Notes and Consignment Notes, ensuring they are legally compliant.
- Issuing weekly dewatering permits, overseeing that water samples are taken weekly, and investigating any results that are outside the limits set by the Client.
- Assisting with production and review of Environmental Management Plans.

#### Assistant Environmental Coordinator, Ferrovial Agroman

- Assisting the environmental team on a hospital road connectivity and network enhancement project, gaining a wholistic understanding of the processes involved in achieving ISO 14001 accreditation.
- Accurately taking in situ water quality tests and monitoring lab analysed data results to ensure they are within the licence limits.
