SUMMARY

Nick has over 30 years' construction industry experience.

Nick joined McGee Group as the new Head of Demolition in 2011 to work with the existing team to enhance the delivery of all the demolition works across McGee Group.

Prior to this Nick worked for Cantillon Ltd as Operations Manager for the last 5 years, having spent the previous 10 years running his own demolition and plant hire company. Prior to that he was involved in heavy civil engineering and large-scale concrete works with both main and subcontractors.

Nick has a wealth of experience on all aspects of demolition and construction encompassing a diverse and detailed range of works including the construction of deep rafts, bridge decks and reinforced concrete framed office blocks to the demolition of railway infrastructure, major production facilities and hospitals. Some of these structures were notable the largest concrete cancer structure in the UK and the largest clear span structure in the UK.

*Nick is also in charge of our **Environmental Services Department** where is responsible for growing and integrating the Group's Environmental Services Division. Nick has vast experience of managing asbestos removal and remediation services due to close link between demolition and environmental services.*

Nick's goal is to ensure McGee Group continue to push the boundaries for safe, environmentally sensitive demolition nationwide and retain the highly regarded status with the industry.

PROJECTS

Nick has undertaken numerous projects over the years including projects such as the 30 South Colonnade, Sampson House and Ludgate House, BBC TV Centre, Southbank Place, Stonebridge Estate NW10, Chambers Wharf SE1, Milton Court EC2, 8 – 13 Lime Street EC3, St Swithins House, Dunlop Tyres Birmingham, Michelin Tyres Stoke on Trent, Royal Devon & Exeter Hospital (Largest Concrete Cancer structure in the UK), The Wills Cigarette Factory Bristol (Largest clear span structure in the UK).

ROLE AND RESPONSIBILITIES

As Head of Demolition and Environmental Services, Nick will be responsible for the strategic support to the project to ensure all standards are maintained and that sufficient resources are allocated to ensure timely safe completion of the works with the minimum of disruption to the neighbours and adjacent stakeholders.

Nick will ensure that the site time respond to the client's needs as they arise and that they are dealt with in a proactive and professional manner.
