This data is private and confidential and must not be shared with any third party without our consent. This data is shared with you on the basis that you have put in place measures to protect this information (such as limitations on transfer and retention policies). If that assumption is incorrect please notify us by return.

### SUMMARY

Paudie Kenneally joined the McGee Group of Companies in 1989 and has worked on some of McGee's prestigious projects including Cannon Street Station, Stables Market, BBC London, 122 Leadenhall Street, No.1 Lothbury, White City in Shepherds Bush and recently 1-3 Grosvenor Square and BBC Television Centre.

Paudie has also successfully completed the Demolition of a 9 Storey Building with a single Basement on Prince's Gate in London's West End. The building opposite Hyde Park is separated from Kensington Road by an apron of landscaping. Prince's Gate is an adopted public road, which runs parallel to Kensington Road.

The excellent work carried out by Paudie and the Site Team was recognised when they received an award from the UK Considerate Constructors Scheme. The award was presented at the National Site Awards Presentation in London.

### ROLE AND RESPONSIBILITIES

As a Site Manager, Paudie will work closely with the Project Manager to ensure all work-related hazards are identified and sufficient risk assessments undertaken. He will also assist with the development of safe working practices in line with the management system and ensure employees and sub-contractors have adequate levels of competency to complete their work tasks safely. Paudie will also check works package plans and carry out toolbox talks to the workforce ensuring that all operatives are working in accordance with these.

### RECENT WORK HISTORY

#### HM State & Royal Buildings

Extensive refurbishment and structural alterations works carried out on a Grade I listed Royal Building (*due to strict NDA, unable to share more details*).

#### HS2 Euston Forecourt

Demolition of existing buildings to the south of Euston Station for HS2 Area South Enabling Works. The buildings consist of 15 and 9 storeys and single storey food outlets contained within 2 units.

#### Soho Place

Demolition of 17 and 19-23 Oxford Street over a live LUL Station including demolition of LUL temporary piles, pile caps, removal of infilled basements, backfill existing basements and pavement vaults, soft strip out.

#### 44 Lincoln's Inn Fields

Demolition of a 9 storey building, construction of a double storey basement (with 3no levels of propping), raft slab (& associated drainage) construction and liner wall & 2no level of prop removal.

#### 1-3 Grosvenor Square

Facade retention, demolition against a Grade II listed building and working embassy, soft strip, asbestos removal followed by Piling, basement box construction and superstructure works for an ultra prime residential project in Mayfair, London.
